less painful and fun for the user

Education

University of North Carolina

Charlotte, USA (Aug 2018 - Dec 2019)

M.S. - I.T. (Human Computer Interaction)

Pune University

Pune, India (Aug 2012 - May 2016)

M.S. - I.T.

Work Experience

Pune University

Pune, India (Aug 2012 - May 2016)

B.E. - I.T.

Academic Projects

UNCC NextRide interface

Aug 2018 - Nov 2016

Designing an interface for the bus stations
for UNCC’s transit system.

User interviews and observations made me realise
that the interface of the existing UNCC NextRide application
is not needed a few enhancements.

Prototyping an interface that would make waiting at the
bus stations

- HTML5
- CSS
- JavaScript
- JQuery
- Bootstrap

Soft Skills

- Leadership
- Communication
- Conflict resolution
- Empathy
- Curiosity

Work Experience

Software Engineer | Persistent Systems

Jan 2017 - May 2018

Worked with cross-functional teams to improve the UX of an online portal.

Developed web pages in close collaboration with the UX team.

Worked on the email notification system of the portal.

Projects

UX Researcher / UI Designer | TrailScout

Aug 2018 - Dec 2019

Researched on a trail scout application and drone for recreational hikers and designed a mobile application using user interviews, user personas and card sorting.

UX Researcher / UI Designer | UNCC Transient

Aug 2018 - Dec 2019

Provided Discovery deliverables and a dashboard interface prototype for UNC Charlotte bus system to alleviate people's pain of waiting at the bus stops through semi-structured interviews and story maps.

UX Designer | ScanLab

Aug 2018 - Dec 2019

Designed a mobile application prototype to scan documents and collaborate on the go to reduce the burden of juggling between multiple application and devices, designed using user research and prototyping.

UX Designer / UI Developer | Pixel Films

Aug 2018 - Dec 2019

Developed a fully functional website for swapping movies using wireframes and HTML5/CSS, NodeJS.

UX Designer | Cards Against Humanity

Aug 2018 - Dec 2019

Designed an online game prototype for the original card game Cards against Humanity to help friends connect virtually sitting in the comfort of their homes through paper prototypes, Wizard of Oz study and digital wireframes.

Education

M. S. - I. T. (Human Centered Design)

Aug 2018 - Dec 2019

University of North Carolina, Charlotte, USA

B. E. - I. T.

Aug 2012 - June 2016

University of Pune, India
